

GRACE GOSPEL CHURCH
Doctrinal Conference
May 23, 2013

Dear Fellow Laborers in the Body of Christ:

The Grace Gospel Ministry welcomes you to our biannual Twenty First Doctrinal Conference in a continuum of others sequences that are to follow. It is our prayer that the seminar proceedings of these several days will certainly be enriching to you in the deeper knowledge of God's blessings for you. This conference is a continuation of our ministry's yearnings to share with God's people our doctrinal positions on certain truths taught in God's Word (see Conference Purpose and Objectives). Our belief is that you will find our views to be equally scriptural and practical. It is our conviction that God has mandated us to establish a curriculum embedded in sound doctrine. The aims of all our presentations and discussions are to demonstrate the actual teachings of the Scriptures as compared to the many bias dogmas of religious traditions. We have prepared numerous charts as well as handout materials included in your packets as well as the display table. This conference's theme is **Living in God's Presence (in the Matrix) Part I**, which in depths adequately conveys the sphere differentiating physicality from spirituality, defining God's plan, purpose and will for His elect, and all things.

We have prepared the inserted materials for your use throughout the conference and for your continuous personal use as well. Under no circumstances should any of the contents be sold, published or reproduced for financial profit. As a church, we unceasingly pray for God's enlightenment of His Word to all those locked in the clutches of traditional thinking, for we are fully cognizance of the antithetical nature of the materials being presented in this conference. As you study and consider this information, our full anticipations are that it will drastically impact your spiritual mindset. Our church staff is available to assist you in any way possible to insure a rewarding conference experience.

This is the Grace Gospel Ministry's twenty-first conference and as always, we solicit your indulgence regarding anything that we may have overlooked. We trust that our logistical and efficiency ratings will improve steadily, as we continue to host even more symposiums. Again we thank God for your attendance and we are anticipating hearing from you in the future concerning the many blessings that God will grant through the knowledge that is conveyed in this conference.

Grace and Peace _

Pastor George D. Cutler
